

CISS-102 Unit 3 – Tools & Scripting

William Jojo

(20090601)

Objective: Using output of commands is informative in determining the next course of action, great or small. It is also a useful way to convert larger, routine forms of work into scripts for unattended operation by end users or operators.

Suggested Reading:

- Chapter 19 (pp. 547-584)
- Chapter 20 (pp. 585-616)

Expected learning outcomes:

- Filter processing.
- Regular Expressions.
- Introduction to shell scripting.

Project:

None.
